

Galaxy Free-Standing Digital Signage

- 1** Features a buttonless tempered glass face, rounded corners, super slim profile and aluminium frame all add to their eye-catching tablet like aesthetics.
- 2** The Galaxy Panel is fitted with commercial grade panels providing a wide viewing angle, improved colour, contrast and brightness as well as the ability to be used 24 hours a day.
- 3** With an eco-friendly power timer and low consumption LED backlight you can be assured of their green credentials and low operating costs.

Update Remotely

The Galaxy range of digital signage can be upgraded for network administration, allowing content to be updated from a remote location via LAN, WiFi or 3G without any additional hardware.

Simple USB Update

Updating the Galaxy range of digital signage is a simple procedure. Images and videos are placed onto a USB memory stick which is then inserted into the Galaxy signage. Galaxy digital signage requires no additional hardware such as PCs, DVD players, excess cables or software.
